Profile

Software Engineering graduate and junior developer with practical experience in web and mobile development. Skilled in modern technologies and passionate about AI, Machine Learning, and innovative software solutions. A fast learner seeking a remote opportunity to contribute and grow professionally.

Work experience

Junior Software Developer / Project Developer

- Developed web and mobile applications using React, React Native, Node.js, Express.js, and MySQL.
- Designed REST APIs, databases, authentication systems, and responsive user interfaces.
- Built real-world software projects including e-commerce, school management, and real-estate applications.
- Used Git/GitHub for version control, testing, debugging, and project development.
